| | |
|------------|-----------|
| HTML5 | Node.js |
| CSS | Express |
| Bootstrap | MySQL |
| JavaScript | Sequelize |
| JQuery | MongoDB |
| React.js | Git |
| Handlebars | Heroku |
| Axios | Excel |

EDUCATION

UCSD Coding Bootcamp: Full Stack Development

2019

University of California San Diego

ABOUT

Highly organized individual with over 10 years of problem-solving experience as a skilled bicycle mechanic. Determined to start a new career path in the tech industry in which I can combine my skills learned in The Coding Bootcamp along with my attention to detail and strong work ethic to assist a company in meeting and surpassing its goals for success!

APPLICATIONS BUILT

Reflect (formally Mindblog)

<https://mindblog.herokuapp.com/>

- Reflect is a journaling application that allows a user to record their daily thoughts while recording their mood and time of day to be used in generating graphs showing the data supplied.
- To build Reflect, we used HTML, CSS, JavaScript, JQuery, Node.js, Express, MySQL, and Sequelize.

MADPass

<https://fathomless-garden-46795.herokuapp.com/>

- MADPass is the basic implementation of a password manager app that allows a user to remember only one login and password. All other login credentials are encrypted and stored in the user's Vault to be accessed quickly and easily.
- To build MADPass we used MongoDB, Express, React.js, and Node.js, bcrypt, crypto-js, and JWT

EXPERIENCE

Trek Bicycle Superstore

Service Department Manager | Apr 2014 to Present

- Monitored and ensured all repairs were completed and customers notified both efficiently and on time.
- Ensuring all service employees have the tools needed to complete repairs (ex. Tools, cleaning supplies, knowledge, training, etc.)

Sport Chalet Sporting Goods

District Bicycle Tech Trainer / Bicycle Dept. Head | Sep 2000 - Apr 2014

- Coordinated and conducted training clinics for Bicycle Dept. employees for General Assembly and Master Mechanic Certifications.
- Drove sales, scheduling, visual merchandising, and preparation and execution of seasonal inventory counts.
